Office Action Summary

Art Unit: 1617

A supplemental action is made because the original action was directed to claims water are amended.

Claims 16-22 (exemplary) are generic to a plurality of disclosed patentably distinct species comprising Blood vessels. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

The claims should be considered as one Markush group. One Ultimate Blood Vessel should be elected. That is, if applicants elect an artery, one artery should be elected from claims 17-20.

Claims 25-41 (Exemplary) are generic to a plurality of disclosed patentably distinct species comprising actives. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

One Ultimate active should be elected.

Claims 46-55 (exemplary) are generic to a plurality of disclosed patentably distinct species comprising polymers. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

One Ultimate polymer should be elected.

Claim 56-59 (exemplary) are generic to a plurality of disclosed patentably distinct species comprising forms. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Claims 60-66 (Exemplary) are generic to a plurality of disclosed patentably distinct species comprising vascular diseases. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record
